Would You Know What To Do?

While you can't predict when an emergency will occur, you can be prepared.

"In the United States, about 300,000 people die each year from cardiac arrest."

In less time than you think, Sensible Safety, Inc. training can give you the vital knowledge and skills you'll need to respond to a life threatening situation with confidence.

Sensible Safety, Inc. First Aid and CPR/AED training will teach you to:

- Care for conscious and unconscious choking victims
- Perform CPR
- Use an automated external defibrillator (AED) on a victim of sudden cardiac arrest
- Give first aid for a variety of injuries, such as burns, wounds, head, neck, and back injuries, and heat and cold related emergencies
- Recognize and manage Sudden Illness such as seizures, stroke and heart attack

"Automated external defibrillators (AED's) are now commonly available in public places such as malls, airports, stadiums and casinos."

In addition to the latest scientific and most comprehensive First Aid and CPR/AED training available:

You will also receive a Participant's Manual which covers core course content plus additional OSHA and prevention information and features step by step skill sheets with full color photos.

Adult and Pediatric Ready Reference sheets provide quick reference to step by step First Aid instructions and include a CPR steps wallet card.
